Dear Chairman Prcic,

Thank you for your letter of July 28 concerning my assumption of the Chancellor's position at the State University of New York and for your update on the relationship between AUBiH and SUNY.

Your university's collaboration with our College of Technology at Canton is a good example of the sort of partnership that generates academically exciting opportunities for students and faculty at SUNY and around the world. As you know, I had the opportunity this summer to meet some of your students during a visit to the Canton campus. Their excitement and enthusiasm for their studies is a clear demonstration of the success of AUBiH in its mission to bring high quality international education to the people of Bosnia and Herzegovina.

I wish you and AUBiH the best in all your endeavors, and of course in your ongoing collaboration with the State University of New York.

Sincerely,

Nancy L. Zimpher  
Chancellor
